**A7. COIN TELEPHONE SERVICE**

**A7.3 (DELETED) (Cont'd)**

**A7.4 Public Telephone Access Service For Customer Provided Equipment (CPE)**

**A7.4.1 General**

- A. Public Telephone Access Service for CPE, and SmartLine\* service for Public Telephone Access in A7.8 of this Tariff, are exchange line services directly connected to the public network provided at the request of the subscriber for telecommunications use by the general public at locations accessible to the general public. Extensions of the Public Telephone Access Service and SmartLine\* service lines are not permitted, except as provided in confinement facilities.
- B. Public Telephone Access Service lines are provided for use with both customer-provided noncoin-operated pay telephones and customer-provided coin-operated pay telephones, as well as customer-provided equipment or processes used for the resale and transmittal of voice or data over the public switched network (such as public facsimile services as defined in Section A1. of this Tariff).
- C. Public Telephone Access Service is provided on a usage rate basis.
- D. The Company will not be responsible for the operation, maintenance, coin refund (*With the exception of Coin Refund and Repair Referral Service provided in A7.10 of this Tariff*) or coin collection of any Public Telephone Access Service instrument it does not provide nor will Company employees offer Public Telephone Access Service instructions for those instruments not provided by the Company.
- E. Public Telephone Access Service for CPE is provided subject to the condition that telephone messages (local and long distance) placed from stations which are accessible to the public are completed over Public Telephone Access Service for CPE lines and SmartLine\* service lines (or other Public or Semipublic lines). Where Public Telephone Access Service for CPE and SmartLine\* service are furnished, any type or grade of business service offered regularly at that location may be furnished in addition, provided such business service is confined to locations solely for use by the particular establishment.

EFFECTIVE: January 1, 1995

**A7. COIN TELEPHONE SERVICE****A7.4 Public Telephone Access Service For Customer Provided Equipment (CPE)  
(Cont'd)****A7.4.1 General (Cont'd)**

- F. Subscribers to Public Telephone Access Service are subject to the rates, rules, and regulations as specified for Business Individual Access Lines in this Tariff unless otherwise stated in this section.
- G. This service may not be suspended at a reduced rate.
- H. Providers of public facsimile or related services which are transmitted over the public switched network are required to obtain a Public Telephone Access Service line for connection to the network. Provision for such services is subject to the rates and regulations set forth herein for Public Telephone Access Service for Customer Provided Equipment (CPE).
- I. All PTAS instruments and all voiceless facsimile devices operated for compensation, other than those located in detention areas of local, state or federal confinement facilities and connected through line concentrators as specified in K.1.g. following, must be connected to the telephone network through PTAS lines furnished by the local exchange telephone company. Except as specified in K.1.g. following, connection through other facilities or systems is prohibited.
- J. All PTAS instruments and all voiceless facsimile devices connected to the network through line concentrators require the use of PTAS trunks furnished by the local exchange telephone company for connection of the line concentrator to the network.
- K. Notwithstanding any provisions herein to the contrary and subject to all other applicable provisions of this Tariff, including but not limited to restrictions on the charges that may be made, the following provisions shall apply to all Public Telephone Access Service telephones located in the detention areas of local, state, or federal confinement facilities.
  - 1. Such telephones:
    - a. May be arranged for outward-only calling, if specifically requested by the administration of the confinement facility;
    - b. May be arranged to terminate calls after ten minutes of conversation time if specifically requested by the administration of the confinement facility, and the local exchange company and presubscribed interexchange carrier are so notified by the telephone provider;
    - c. Shall be arranged to block 411 calls, but a copy of a current local directory must be available for inmate access;
    - d. Shall be arranged to allow only 0+ collect calls for local, intraLATA, and interLATA calls and to block all other calling including, but not limited to, local direct calls, credit card calls, third number calls, 1+ sent-paid calls, 0+ sent-paid calls, 0- sent-paid calls, 0- calls, 800 calls, 900 calls, 976 calls, 950 calls, 911 calls, 10XXX, and 101XXXX calls. Provided, however, that where the local exchange company or the telephone set can block additional digit dialing after initial call set-up, 1+ long distance and seven digit local dialing may be permitted if specifically requested by the administration of the confinement facility.
    - e. May, if specifically requested by the administration of the confinement facility, be arranged to block access to certain specific numbers identified by the administration or to allow access to only certain specific numbers identified by the administration.
    - f. Shall, at the request of the administration of the confinement facility, provide for the cut off of designated PTAS instruments through the use of cut-off keys or switches placed on the provider side of the network interface;

EFFECTIVE: January 1, 1995

**A7. COIN TELEPHONE SERVICE****A7.4 Public Telephone Access Service For Customer Provided Equipment (CPE)  
(Cont'd)****A7.4.2 Responsibility of the Subscriber (Cont'd)**

C. Customer-provided pay telephones must be registered and connected to the Company network in compliance with Part 68 of the FCC Rules and Regulations as well as the regulatory and certification requirements of the North Carolina Utilities Commission. Subscribers of Public Telephone Access Service must provide to the local exchange company the FCC registration number and specific location of each instrument to be connected and a copy of its certificate if applicable prior to Public Telephone Access Service for CPE being furnished. Subscribers are also responsible for ensuring that the mailing address required for Local Exchange Company bills for lines installed pursuant to a COCOT certificate is the same as the address shown on the certificate. A revision of the certificate concurrent with a change of name or address is required by filing an appropriate application with the North Carolina Utilities Commission. Customer-provided pay telephones must have the following characteristics:

1. Outside of confinement facilities, must be able to access the Company Operator (0-) and completion of 0- local and long-distance calls billed to a credit card, a third number, or the called number (collect) at no charge to the end user;
2. Must be able to access 911 Emergency Service, where available, at no charge;
3. The following information must be posted at each PTAS instrument other than those located in the detention areas of local, state, or federal confinement facilities:
  - a. The appropriate emergency number (911, operator or other).
  - b. Clear operating instructions and procedures for handling repair, refunds, and billing disputes.
  - c. The current telephone number of the PTAS line and the local address.
  - d. The name, address, and COCOT Certificate Number of the provider. The name, address, and COCOT Certificate Number shown on the instrument must be the same as those shown on the provider's COCOT Certificate.
  - e. A prominent display of the coin access charge, if any, which will be imposed for completion of a 0+, 10XXX-0+ or 101XXXX-0+ local or long distance call and for an 800 call.
  - f. The name of the presubscribed interexchange carrier(s) or, in non-equal access areas, the name of the carrier to which 0+ and 00+ calls will be routed.
  - g. Whether international calling capability is blocked from the PTAS instrument.
4. The following information must be posted at each PTAS instrument located in the detention areas of local, state, or federal confinement facilities. The information must be printed sufficiently large and posted close enough to the telephone to be easily readable from the telephone:
  - a. Notice that only collect calls are allowed and that all other calls are prohibited unless the telephone is arranged to permit 1+ toll and seven-digit local dialing. In that case, the notice shall state the types of calls that are permitted and that all other calls are prohibited.
  - b. Clear operating instructions and procedures for reporting equipment or service problems.
  - c. The current telephone number of the PTAS instrument unless the instrument is arranged or programmed to allow outward-only calling.
  - d. The name and COCOT certificate number of the provider. The name and COCOT certificate number shown at the instrument must be the same as those shown on the provider's COCOT certificate.
  - e. The cost of a local collect call.

(C)

## A7. COIN TELEPHONE SERVICE

### A7.4 Public Telephone Access Service For Customer Provided Equipment (CPE) (Cont'd)

#### A7.4.2 Responsibility of the Subscriber (Cont'd)

##### C. (Cont'd)

5. Coin-operated instruments must be equipped to return the coins to the caller in the case of an incomplete call; (T)(M)
6. Coin-operated instruments must be equipped to accept nickels, dimes, and quarters; (T)(M)
7. All Public Telephone Access Service instruments must allow receipt of incoming calls at no charge; (C)(M)
8. All customer-provided pay telephones must allow completion of local and long-distance calls including 0+ local and long-distance calls billed to a credit card, a third number, or the called number (collect); provided, however, that sent-paid international calling capability may be blocked; (T)(M)
9. Customer-provided pay telephones may allow completion of 0+ local and IntraLATA toll station to station calls billed to the called number (collect) via store and forward technology. 0+ dialed local and IntraLATA toll calls billed to the called number (collect) must be diverted to the Company operator in an appropriate manner for handling if the end user so desires. 0+ dialed local and IntraLATA calls billed to a credit card or third number, or person-to-person calls must be routed to the Company operator for handling; (T)
10. A current and complete local telephone directory must be maintained at each pay telephone instrument at all times; (T)
11. All telephones must be arranged or programmed to allow access to all available Interexchange Carriers (ICs) on a non-discriminatory basis. (T)
12. Customer-provided telephones must meet all jurisdictional requirements regarding their use by hearing-impaired and handicapped persons; (T)
13. Subscribers to Public Telephone Access Service lines connecting customer-provided devices providing public facsimile and related services may charge unregulated rates for the facsimile portion of the service and shall be required to conspicuously display such rates on or near the facsimile device. (T)
- D. Proof of certification must be furnished to the Company by the subscriber prior to Public Telephone Access Service for CPE being furnished. Subscribers to Public Telephone Access Service lines connecting customer-provided devices having no real or intended voice capability (such as voiceless facsimile and related services), and who are not required to obtain a special certificate from the North Carolina Utilities Commission, are exempt from proof of certification.
- E. The Public Telephone Access Service subscriber shall be responsible for payment of a trouble location charge as covered in Section A15 of the applicable telephone company tariff for each visit by the Company to the premises of the subscriber, where the service difficulty or trouble report results from the use of equipment or facilities provided by the subscriber.
- F. The Public Telephone Access Service subscriber is responsible for abiding by all applicable telephone company tariffs. Failure to do so is grounds for immediate disconnection of service.
- G. Customer-provided pay telephones must be installed in compliance with all accepted telecommunications industry standards and the current National Electrical Code and National Electrical Safety Code.
- H. The Public Telephone Access Service subscriber is responsible for payment of all charges from the telephone company and interexchange carriers including charges for all toll messages originated from or accepted at the pay station locations.
- I. The subscriber must allow local and long distance directory assistance at no charge.

EFFECTIVE: January 18, 1995

**A7. COIN TELEPHONE SERVICE****A7.4 Public Telephone Access Service For Customer Provided Equipment (CPE)  
(Cont'd)****A7.4.2 Responsibility of the Subscriber (Cont'd)****J. Automated Collect Station to Station Calls**

Station to station calls generated by automated collect devices provided by COCOT Providers which are placed and billed to a called number without the assistance or intervention of a human operator will be allowed under the following requirements:

1. The name and number of the COCOT Provider is required to appear on the end user's bill. The Company will provide billing and collection services for rates and charges associated with automated collect calls as specified in this Tariff and under the provisions set forth in Section E8. of the Access Service Tariff. The billing authority granted in association with automatic collect calling and under the rules and regulations as set forth by the North Carolina Utilities Commission may be exercised only in connection with such calls;
2. The called party is required to actively accept and indicate a willingness to pay for an automated collect station to station call, and, in the absence of such acceptance, the call is to be diverted in an appropriate manner without charge;
3. If the called party does not act to accept or reject the automated collect station to station call (a) the call must be directed to an operator of a certified carrier (except in confinement facilities), or, (b) instructions must be provided to the end user on how to complete the call using an operator of a certified carrier. Such calls originating from confinement facilities should be terminated;
4. A COCOT Provider of automated collect calls must use a certified Local or Interexchange Carrier to transmit all communications involved in the call;
5. A COCOT Provider of automated collect calls is required to block or arrange for blocking of calls to 900, 976, 950, 700, 10XXX and 101XXXX codes;
6. The provisioning of automated collect station to station calling capability (outside of confinement facilities) must not restrict the end user's ability to make other types of calls, such as credit card or sent-paid coin calls, however, sent-paid international calling capability may be blocked;
7. Proof of special certification by the North Carolina Utilities Commission must be furnished to the Company by automated collect service subscribers connecting to Public Telephone Access Service.
8. Recipients of automated collect station to station calls may not be charged more for such calls than the amount charged by the Company for local or intraLATA collect calls or by AT&T Communications for interLATA collect calls.

**K. Providers of Public Telephone Access Service instruments may not contract with, or arrange for the instruments to automatically access, any non-certified carrier for completion of intrastate calls.**

**L. Providers of Public Telephone Access Service instruments may not contract with, or arrange for the instruments to automatically access, any carrier other than the Company to carry local intrastate calls originated from those instruments.**

**M. Use of collect, third number, calling card or auto-collect calling is prohibited to those Public Telephone Access Service lines which connect public facsimile and related services.**

**N. COCOT providers may restrict incoming and/or outgoing calls at any specific PTAS instrument in the interest of public safety and welfare under the following conditions:**

1. Such restrictions have been requested in writing as to the specific PTAS instrument from the chief local law enforcement officer acting within his apparent jurisdiction stating that the specific restrictions requested are needed in the interest of public safety and welfare. The COCOT provider shall keep a copy of such requests from the chief local law enforcement officer on file for inspection and upon request by the Commission or the Public Staff shall provide copies of the requests for restrictions. The COCOT provider shall retain copies of the requests for restrictions so long as the pay phones remain restricted.

### A7.4 Public Telephone Access Service For Customer Provided Equipment (CPE) (Cont'd)

## A7.4.4 Optional Service Features

## A. Central Office Blocking with Operator Screening

Central Office Blocking with Operator Screening is offered where facilities permit to provide a choice of restrictions at the subscriber's option. These options will be available for Public Telephone Access Service for CPE as follows:

1. Option 1 - Two-Way Service. Provides that third number and collect calls to Public Telephone Access Service for CPE are not allowed.
2. Obsolete (See A107.2).
3. Option 2 - Two-Way Service. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Further, third number and collect calls to Public Telephone Access Service for CPE are not allowed.
4. Obsolete (See A107.2).
5. Option 3 - Two-Way Service. Provides central office blocking of 7 or 10 digit local, 976, 1+DDD, all 10XXX or 101XXXX direct dialed calls and 1+900 calls. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Further, third number and collect calls to Public Telephone Access Service for CPE are not allowed. Provides central office blocking of 011+, 10XXX 011+ and 101XXXX 011+ calls.<sup>1,2</sup>
6. Obsolete (See A107.2).
7. Option 4 - Two-Way Service. Provides central office blocking of 976, 1+DDD, all 10XXX or 101XXXX direct dialed calls and 1+900 calls. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Further, third number and collect calls to Public Telephone Access Service for CPE are not allowed. Provides central office blocking of 011+, 10XXX 011+ and 101XXXX 011+ calls.<sup>1,2</sup>

**Note 1:** Provides central office blocking of direct distance dialed international (011+, 10XXX 011+ and 101XXXX 011+) calls to numbers outside the North American Number Plan.

**Note 2:** Intrastate Directory Assistance calls dialed 1+919+555-1212, 1+910+555-1212 or 1+704+555-1212 will be completed and will not be blocked in the central office.

A7.4 Public Telephone Access Service For Customer Provided Equipment (CPE)  
(Cont'd)

## A7.4.4 Optional Service Features (Cont'd)

## A. Central Office Blocking with Operator Screening (Cont'd)

8. Obsolete, See A107.2
9. Option 5 - Two-Way Service. Provides that third number and collect calls to Public Telephone Access Service for CPE are not allowed. Provides central office blocking of 011+, 10XXX 011+ and 101XXXX 011+ calls.<sup>1,3</sup>
10. Option 6 - Two-Way Service. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Third number and collect calls to Public Telephone Access Service for CPE are not allowed. Provides central office blocking of 011+, 10XXX 011+ and 101XXXX 011+ calls.<sup>1,3</sup>
11. Option 7 - Outward Only Service. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Provides central office blocking of 011+ calls.<sup>1,2</sup>
12. Option 8 - Outward Only Service. Provides central office blocking of 7 or 10 digit local, 976, 1+DDD, 1+900 and 011+ calls. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line.<sup>1,2</sup>
13. Option 9 - Outward Only Service. Provides central office blocking of 976, 1+DDD, 1+900 and 011+ calls. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line.<sup>1,2</sup>
14. Option 10 - Two-Way Service for use in confinement facilities utilizing line concentration. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Third number and collect calls to Public Telephone Access Service for CPE are not allowed.
15. Option 11 - Two-Way Service for use in confinement facilities utilizing line concentration. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Third number and collect calls to Public Telephone Access Service for CPE are not allowed. Provides central office blocking of 011+, 10XXX 011+ and 101XXXX 011+ calls.

- B. Third number and collect calls billable to the line are not allowed, special equipment serving the originating caller's location is required to make this feature operable. Where such equipment is installed, call attempts which have been screened will not be completed. The operator will advise the calling party that alternative billing arrangements will have to be made before the call can be completed. Where such equipment is not installed, call attempts on a third number basis will be completed but will not be billed to the Public Telephone Access Service line pending investigation. All Public Telephone Access Service subscribers are advised that calls so completed will be thoroughly investigated as fraudulent calls. The party placing these calls will be expected to make full restitution and will be legally responsible for them. Call attempts on a collect basis which are accepted at the Public Telephone Access Service location will be billed to the Public Telephone Access Service line. Payment for these collect calls will be required.

Note 1: To the monthly rate shown, add an amount equivalent to sixty percent of the business individual line flat rate.

Note 2: Provides central office blocking of 011+ calls direct distance dialed to numbers outside the North American Numbering Plan.

Note 3: For the Access Line Feature Options which do not offer central office blocking of 900 and 976 calls, the feature is available at the request of the subscriber as provided under Customized Code Restriction (CCR) Option Number 4 defined in A13.20 of this Tariff.

(Cont'd)****A7.4.5 Rates and Charges (Cont'd)****A. Public Telephone Access Service for CPE (Cont'd)**

6. Where facilities are not available in the serving central office, Public Telephone Access Service for CPE may be provided from another office with applicable rates and charges as provided in Section A9. of this Tariff for Foreign Exchange or Foreign Central Office Service.
7. A charge equivalent to that charged on business individual line service is applicable for Toll Directory Assistance Services (Reference A18.7 of this Tariff) plus any appropriate additive operator services charges (as provided in A18.3.1.H. of this Tariff).  
A charge equivalent to that charged on business individual line service is applicable for local Directory Assistance Services (Reference A3.8.2.A. of this Tariff) plus any appropriate additive operator services charges (as provided in A3.9.1 of this Tariff). No charge shall apply for twenty-five local directory assistance inquiries per month per pay station access line.
8. Service Charges as covered in Section A4. of this Tariff for business individual line service are applicable.
9. Listings in connection with Public Telephone Access Service for CPE are furnished under the same rates and regulations as other business service.

**A7.4.6 Charges to Public Telephone Access Service End User**

- A. The end user of a PTAS instrument may not be charged more than twenty-five cents for the carriage and completion of a local sent-paid call.
- B. The end user of a PTAS instrument may not be charged a rate higher than the rate that could be charged by AT&T for the carriage and completion of an intrastate, interLATA station to station toll call of the same type.
- C. The end user of a PTAS instrument may not be charged at a rate higher than the rate that could be charged by the Company for the carriage and completion of an intrastate, intraLATA station to station toll call of the same type.
- D. The end user of a Public Telephone Access Service instrument may not be charged more than 25 cents by the provider for 0+ local or toll calls, 10XXX-0+ or 101XXXX-0+ interLATA toll calls, and 800 calls provided these charges are prominently displayed on the pay telephone instrument. The charges of the Company or the IC handling the call will also apply to these calls. These charges are billed by or on behalf of the carrier handling the call and are retained by that carrier.
- E. The recipient of an automated collect station to station call may not be charged more for the call than would have been charged by the Company for a local or intraLATA collect station to station call or by AT&T for an interLATA collect station to station call.

Cancels First Revised Page 10

EFFECTIVE: September 30, 1996

## A7. COIN TELEPHONE SERVICE

## A7.8 SmartLine® Service for Public Telephone Access

## A7.8.1 General

- A. SmartLine® service is a Public Telephone Access Service for CPE and is a standard Dial Tone First (DTF) coin line for customer-provided pay telephones.
- B. SmartLine® service will be provided from central offices where facilities are available.
- C. This service is provided subject to the requirements set forth in A7.4.1, A7.4.2, A7.4.3, A7.4.4.B, A7.4.5, A7.4.6, and Section A2. of this Tariff.
- D. Characteristics and regulations of SmartLine® service are as follows:
  1. Service will be provided on a two-way basis, except lines placed in confinement facilities *or as described in 2. following*. There will be no charge imposed for incoming calls.
  2. COCOT providers may restrict incoming and/or outgoing calls at any specific PTAS instrument in the interest of public safety and welfare under the following conditions:
    - a. Such restrictions have been requested in writing as to the specific PTAS instrument from the chief local law enforcement officer acting within his apparent jurisdiction stating that the specific restrictions requested are needed in the interest of public safety and welfare. The COCOT provider shall keep a copy of such requests from the chief local law enforcement officer on file for inspection and upon request by the Commission or the Public Staff shall provide copies of the requests for restrictions. The COCOT provider shall retain copies of the requests for restrictions so long as the pay phones remain restricted.
  3. Service will be provided on a DTF basis to enable end users to dial certain calls without requiring coin deposits, e.g. 911 Emergency Calls, directory assistance, access to the operator, and non-sent paid calls.
  4. Central office blocking of 900 and 976 calls will be provided.
  5. Operator Call Screening (ANI 07 and ANI 27) will be provided to alert operator and carrier systems that the call is originating from a SmartLine® service line and may require special handling and billing treatment.
  6. Billed Number Screening will be provided to indicate in validation data bases that incoming collect and bill to third number calls are not to be billed to the line.
  7. Coin signaling (coin collect and coin return) will be provided by the network. The coin collect signal is sent to the network interface when a call has been completed and the coin return signal is sent if a no answer or busy condition is encountered.
  8. Standard recorded announcements currently used with the Company's Public Telephone service will be utilized with SmartLine® service.
  9. The Company's operator system will handle 0-, 0+ and 1+ intraLATA toll calls and 0+ local calls from SmartLine® service lines. All 10XXX 0+, 101XXXX 0+, 10XXX 0- and 101XXXX 0- dialed intraLATA toll calls will be routed to the dialed carrier.
  10. Sent paid interLATA, interstate and international calls originating from SmartLine® service lines including but not limited to 1+, 10XXX 1+, 101XXXX 1+, 011+, 10XXX 011+ and 101XXXX 011+ access code calls will be sent to the presubscribed IC unless the IC is unable to handle coin rating. If the IC is unable to handle coin rating, the call will be sent to AT&T for coin rating and completion. Special billing/coin sharing arrangements between the SmartLine® service subscriber and their respective carriers will be the responsibility of the SmartLine® service subscriber.
  11. The limit of the Company's liability for fraud of whatever nature occurring at or in association with the subscriber's equipment shall be governed by A2.5 of this Tariff and rules or regulations of the North Carolina Utilities Commission (NCUC). In the case of a conflict between the Company's Tariff and a rule or regulation of the NCUC, the rule or regulation shall prevail.
  12. All 0+ interLATA calls will be routed to the SmartLine® service subscriber's presubscribed carrier.
  13. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment.

Cancels Original Page 11

EFFECTIVE: September 30, 1996

## A7. COIN TELEPHONE SERVICE

## A7.8 SmartLine® Service for Public Telephone Access (Cont'd)

## A7.8.2 Rates and Charges

A. SmartLine® service will be provided on a usage rate basis where facilities are available.

1. Usage Rate Service - The following monthly rate is applicable to SmartLine® service on a per line basis.

	Group					
	1	2	3	4	5	USOC
(a) Two-way, per line <sup>1</sup>	\$30.10	\$30.85	\$31.65	\$32.35	\$33.15	SLU
(b) Outward only, per line <sup>1</sup>	30.10	30.85	31.65	32.35	33.15	SLN
	Group					
	6	7	8	9	10	USOC
(c) Two-way, per line <sup>1</sup>	\$34.05	\$34.90	\$35.70	\$36.70	\$37.90	SLU
(d) Outward only, per line <sup>1</sup>	34.05	34.90	35.70	36.70	37.90	SLN

B. Usage charges for local calls are applicable as specified in A7.4.5.A.1. of this Tariff.

C. The rate for sent paid local calls will be established by the SmartLine® service subscriber's set. The network will send a signal to the set to determine if the local rate has been deposited.

D. Operator handled sent paid local calls will be rated to the end user at the rate set forth in A7.1 plus the appropriate operator surcharge in A3.9.1 of this Tariff. The SmartLine® service subscriber will be charged the appropriate usage rate in B. preceding.

E. Non-sent paid local calls will be rated to the end user at the rate set forth in A7.1 plus the appropriate operator surcharge in A3.9.1 of this Tariff.

F. Sent paid intraLATA long distance calls will be rated to the end user at the long distance rates and the appropriate operator surcharge set forth in A18.3 of this Tariff. The SmartLine® service subscriber will be charged the appropriate long distance rates set forth in A18.3 of this Tariff.

G. Non-sent paid intraLATA toll calls will be rated to the end user at the long distance rate and the appropriate operator surcharge set forth in A18.3 of this Tariff.

H. Switched Access charges for usage as provided in E3.8 and E6.8 of the Access Service Tariff will be billed to the IC for long distance calls routed to the IC.

I. Touch-Tone Calling Service will be provided at rates specified in A13.2 of this Tariff for business individual line service.

J. The SmartLine® service subscriber will be charged for local and intraLATA long distance Directory Assistance Service as specified in A7.4.5 of this Tariff. No deposit will be required from the end user for directory assistance requests.

K. Service charges as covered in A4.3 of this Tariff for business individual line service are applicable.

L. Listings in connection with SmartLine® service are furnished under the regulations specified in A6.1 of this Tariff for Company and Public Telephone Access Service.

M. Suspension of service is not allowed.

N. Rates for Verification and Emergency Interrupt Service as provided in A3.10 and A18.8 of this Tariff are applicable and will be billed to the SmartLine® service subscriber. The network will require a deposit be made by the end user unless charged to an alternate billing method.

**Note 1:** Same groups as for basic local exchange service. SmartLine® telephone service rates for exchanges whose basic local service rates are provided in A3.4 Local Exceptions, are the rates stated above plus any additive provided in A3.4.

EFFECTIVE: October 1, 1996

## A7. COIN TELEPHONE SERVICE

### A7.9 Reserved For Future Use

### A7.10 Coin Refund and Repair Referral Service (CRS)

#### A7.10.1 General

- A. Coin Refund and Repair Referral Service (CRS) provides handling of refund requests and repair referrals generated by the end users of Independent Payphone Provider (IPP) public telephones. End users may request refunds for coins lost during an attempt to place local, intraLATA, or interLATA calls and/or submit repair/trouble reports for the IPP public telephone to the Company's operator services.
- B. CRS is available to any IPP outside confinement facilities which also subscribes to Operator Screening. CRS will not be provided for pay telephones located in confinement facilities.

#### A7.10.2 Regulations

- A. All access lines subscribed to CRS must be subscribed to the same option.
- B. The IPP public telephone must include detailed instructions on how to obtain refund and repair referral assistance.
- C. The Coin Refund portion of the service will be provided on one of the following options:
  - 1. Option 1 - The Company operator will take the refund request from the end user and forward the information to the IPP for processing.
  - 2. Option 2 - The Company operator will take the refund request from the end user. If the request is for a credit to the end user's account with the Company, the operator will issue the credit. Any other refund request will be forwarded to the IPP for processing.
  - 3. Option 3 - The Company operator will take the refund request from the end user and issue a credit or draft as requested by the end user.
- D. Repair referral service will be offered with any of the coin refund options or on a stand alone basis. The Company operator will take the repair report from the end user and refer to the IPP for handling.
- E. In the case of system outages or lost data, the Company shall have no liability and shall not be responsible for providing refunds or repair referrals to the end user.
- F. Charges for CRS and the amounts of the refunds to the end user will be made based solely on the Company's refund request data.
- G. Non-payment of charges for CRS may result in the interruption of the IPP's access line service.
- H. Any request that results in a repair referral and a refund referral will be charged as two referrals.
- I. IPPs requesting to terminate CRS after subscribing lines to the service must give the Company thirty days advance notice. The IPP will be responsible for the charges incurred for CRS during the thirty day termination period. The IPP will also be responsible for any changes to its payphones and/or instruction cards after the service has been interrupted, terminated or disconnected.

EFFECTIVE: October 1, 1996
